BRAZOS AREA HAY PRODUCERS ASSOCIATION

Purpose and Objectives:

The Brazos Area Hay Producers Association (BAHPA) was organized in 1986 as a non-profit educational organization.

The objectives of the BAHPA are to: 1) promote the production of high quality hay, 2) provide sources of high quality hay for consumers and 3) market hay by weight and analysis. Membership in this association signifies support to these objectives. The BAHPA sponsors activities to accomplish these objectives. Examples include educational meetings, hay shows, tours, forage and soil testing, and this hay directory.

Board of Directors:

Chairman.....	Chris Duewall
Vice-Chairman.....	Jody Naumann
Secretary	John Smith
Treasurer	Justin Irick
Member-at-Large	Nathan Ausley
Member-at-Large	Charles Brown
Member-at-Large	George Delfeld
Member-at-Large	Jim McCord

Advisors:

Brazos County Extension Agent– Ag/NR	Dustin Coufal
Extension Forage Specialist (Retired)	Dr. David H. Bade
Extension Specialist– Emeritus.....	Dr. Neal Pratt
Extension Soil Chemist & Director– Soil Testing Lab.....	Dr. Tony Provin
Burleson County Extension Agent– Ag.....	Dusty Tittle
Grimes County Extension Agent– Ag	Kim Hall
Leon County Extension Agent– Ag.....	Cayla Christianson
Limestone County Extension Agent– Ag	David Groschke
Madison County Extension Agent– Ag	Brandon Brashear
Milam County Extension Agent– Ag	Jon Gersbach
Robertson County Extension Agent– Ag.....	Edward Schneider
Washington County Extension Agent– Ag.....	Larry Pierce

CONSTITUTION

Article I

The name and address of the Association shall be:
Brazos Area Hay Producers Association
c/o Brazos County Extension Office
2619 Highway 21 West
Bryan, Texas 77803
(979) 823-0129

Article II

This association is a non-profit education organization. The purpose of this association includes:

- A. Promoting profitable production and utilization of forages.
- B. Stimulating cooperation among producers, research, Extension, agricultural industry representatives and the public sector.
- C. Identifying needs for research in forage production, marketing and use.
- D. Promoting forage and grasslands as valuable soil and water conserving crops.

Article III

Membership:

- A. Membership shall be maintained by annual payment of dues.
- B. Membership shall be open to all persons without regard to race, creed, color, sex, national origin or handicap.

Article IV

Directors and Officers:

- A. The Board shall consist of nine (9) directors to be elected from the membership at the annual meeting.
- B. Officers of the Association shall be: Chairman, Vice-Chairman, Secretary and Treasurer elected annually from the association's board of directors. This shall take place at a re-organizational meeting to be held by the Board of Directors following the annual meeting.
- C. The term of office held for a director shall be three (3) years. Initially, directors will serve 1, 2, or 3 years as decided by the board in order to provide for annual election of one or two board members.

Article V

- A. The annual meeting for all members shall be held in November.
- B. The annual meeting shall be held for:
 - 1. Election of directors
 - 2. Annual financial report
 - 3. General business meeting
 - 4. Committee reports
 - 5. Adoption of budget
 - 6. Establishment of activities for coming year
 - 7. Other business in furtherance of the Association

Article VI

Constitutional Amendments:

The Constitution may be amended by a majority vote of the members present at the annual business meeting provided fifteen (15) days prior written notice is given to the membership of the proposed.

VALUE OF HIGH QUALITY HAY

J. Neal Pratt, Forage Specialist, Emeritus
Texas A&M AgriLife Extension Service

High quality hay is valuable for nutrients, in addition to bulk for animal diets. Low quality hay usually needs supplementation to meet animal requirements. Supplementation can become expensive. Protein, energy, and minerals are important quality factors of hay.

Hay and livestock producers need to adopt a system of pricing hay based on chemical analysis. One method is pricing hay according to protein content. A procedure for valuing hay on a protein basis includes the following assumptions:

- Average bale weighs 60 pounds
- Selling price is \$2.00 per bale (\$72 per ton)
- Average protein content of county hay is estimated at 10% crude and 6.5% digestible.
- If 41% cottonseed meal (CSM) is \$200/ton, the cost is \$.32 per pound of digestible protein.

Compared to cottonseed meal, each 1% increase of protein in the hay increases the value of a ton of that hay by \$5.88. Cottonseed meal is 41% crude protein. Thus, there are 820 pounds of protein per ton of CSM.

Protein/ Crude Protein	Protein Value/ 60 # Bale	Protein Value/ Per Ton
6	\$1.40	\$46.48
7	\$1.57	\$51.36
8	\$1.70	\$56.24
9	\$1.85	\$61.12
10	\$2.00	\$66.00
11	\$2.15	\$70.88
12	\$2.30	\$75.76
13	\$2.44	\$80.64
14	\$2.56	\$84.64

*Value based on average hay of 10.0 percent crude protein selling for \$72 per ton of \$2.00 per bale. Bales average 60 pounds or 36 bales per ton. 41% cottonseed meal value at \$200 per ton or \$.32 per pound of protein.

BALE WEIGHT DETERMINES COST OF HAY

Purchasing hay at a fixed price per bale can result in unexpected high prices per ton. Weights of hay bales vary considerably. Most other commodities such as, feed grains, supplements, and other items are sold on a weight basis.

Individuals who purchase hay by the bale (rather than by the ton) should know the average weight of bales they are purchasing and calculate the cost per ton of that hay. Table 1 shows the cost per ton of hay at various bale weights and prices of large bales. Table 2 shows this information for small bales.

Table 1. Cost Per Ton of Hay at Various Bales Weights (Large Bales)

Weight of Bales (lbs.)	Prices Per Bale (\$)				
	25	30	35	40	45
	Cost Per Ton Of Hay (\$)				
1,000	50.00	60.00	70.00	80.00	90.00
1,100	45.45	54.55	63.64	72.73	81.82
1,200	41.67	50.00	58.33	66.67	75.00
1,300	38.46	46.15	53.85	61.54	69.23
1,400	35.71	42.86	50.00	57.14	65.29
1,500	33.33	40.00	46.67	53.33	60.00

Table 2. Cost per Ton of Hay at Various Bale Weights (Small Bales)

Price Per Bale Dollars (\$)	Weight of Bales in Pounds			
	50	55	60	65
	Cost Per Ton Of Hay (\$)			
\$3.00	120.00	109.09	100.00	92.31
\$3.50	140.00	127.27	116.67	107.69
\$4.00	160.00	145.44	133.32	123.08
\$4.50	180.00	163.62	149.99	138.47
\$5.00	200.00	181.80	166.65	153.85
\$5.50	220.00	199.98	183.32	169.24
\$6.00	240.00	218.16	199.98	184.62

MAJOR ACCOMPLISHMENT

1. Promotion of Soil Testing
2. Soil Test Interpretation Conferences
3. Dr. O.D. Butler Memorial Forage Field Day
4. Dr. O.D. Butler Scholarship Program
5. Result Demonstrations on Weed Control, Fertilization, Hay Production and Brush Control
6. Forage Testing Week
7. Doug Davidson– Brazos Valley Hay Show
8. Revising and Distributing the BAHPA Hay Directory
9. Informational Newsletters and Media Outreach

CLASSES OF MEMBERSHIP

Classes of membership available in the BAHPA are indicated and described as follows:

1. **CONTRIBUTORS**– Cost, **\$250.00**. Primarily agribusiness who market goods and/or services used in the production of hay. **Provides exhibitor space at the Dr. O.D. Butler Forage Field Day, listing in the BAHPA Hay Directory and field day program, and free admission to the field day.**

The following membership categories will be entitled to free admission to the field day, free hay testing for the Brazos Valley Hay Show, and a BAHPA membership card.

2. **PRODUCERS**– Cost, **\$50.00**. Growers who have hay available for market.
3. **CUSTOM HAY OPERATORS**– Cost, **\$50.00**. Individuals who harvest hay and/or perform other services related to agriculture production.
4. **BERMUDA SPRIGS AND/ OR PLANTING**– Cost, **\$50.00**. Individuals who produce sprigs for sale and/or do custom planting.
5. **HAULER/BROKERS**– Cost, **\$50.00**. Individuals who haul and/or transport hay.
6. **SUPPORTERS**– Cost, **\$50.00**. Hay, forage and/or livestock producers who support the BAHPA objectives but do not produce hay for market.

AGRICULTURAL PROFITABILITY

Brazos, Burlleson, Grimes, Leon, Limestone, Madison, Milam, Robertson, and Washington Counties

Agricultural profitability is the priority issue addressed each year by the Brazos and surrounding County Extension Programs. Farmers and ranchers continue to face major operating adjustments to overcome financial setbacks resulting from reduced profitability. As a result, Extension provides a closer look at production practices that may reduce expenses and/or increase income.

Brazos County is ranked as one of the top cow/calf producing counties in Texas with gross receipts of over \$22.5 million annually from the sale of cows and calves. Beef cattle have proven to be the most efficient and economic utilizers of our native and improved pasture grasses. The county has over 200,000 acres of its 376,678 total acres in forage production resulting in two-thirds of the county currently in grass production. Gross receipts of over \$3.6 million are from annual hay sales. Harvesting this natural resource through cattle and calves has shown to be the most practical and cost effective method in returning dollars to local producers and this community.

The Brazos Area Hay Producers Association was formed in May of 1986 with the help of local producers and the Texas A&M AgriLife Extension Service to address the issues at hand. The focus of our mission is to produce high quality forages at a minimum expense while marketing any excess forage according to its nutritional value. Over the past 26 years, several Extension educational activities and programs were sponsored including: tours, field days, hay shows, clinics, seminars, mass media reports and result demonstrations. With the research based information received from the Texas A&M University Land Grant System, the Texas AgriLife Extension Service has provided timely, informative educational information to area producers. During this time, the following major accomplishments have been achieved:

- Over 175 hours of continuing education units have been offered to private, commercial and non-commercial pesticide applicator licensees.
- Over 3,000 soil test analysis have been performed for area forage producers. This has a net savings of \$10,000 in analysis costs alone.
- Over 33,000 in scholarships have been awarded to youth wishing to pursue further educational opportunities at the college, junior college or trade school level.
- Yearly average crude protein content of harvested forage has consistently been above 11% except during drought years.
- 86% of the producers control weeds through chemical application or cultural practices.

Economically, these accountability indicators mean a one million dollar increase in the nutrient value of the hay produced annually in Brazos County. Thus, this increased forage quality reduced the need for purchasing supplemental feed which continues to be the number one expense in beef cattle production. Furthermore, cattle are healthier, in better body condition, have maintained a higher calf crop thus returning more pounds of beef per cow per year adding additional profits and net dollars to producers.

Environmentally, the forage programs have helped reduce soil erosion and maintain high quality ground and surface water quality. Forage production has doubled where improved forage production practices have been adopted and implemented.

DR. O.D. BUTLER MEMORIAL SCHOLARSHIP

Established 1998

DR. O.D. BUTLER

1918 - 1998

Dr. Butler was one of the original founders and Directors on the Board of the Brazos Area Hay Producers Association (BAHPA). He was known locally, nationally and internationally for his numerous contributions to agriculture and his great desire to educate others.

The BAHPA honors Dr. Butler by awarding the "Dr. O.D. Butler Memorial Scholarship" annually in his name. This scholarship opportunity is open to all youth who reside in the nine county area of Brazos, Burleson, Grimes, Leon, Limestone, Madison, Milam, Robertson and Washington Counties. The scholarship is available to any 4-H or FFA member regardless of their major in college.

An application for the Dr. O.D. Butler Memorial Scholarship is located in the following pages. The number of scholarships and dollar amount is dependent on availability and will be announced at a later date.

Due: Friday, July 5, 2013 by 5:00 pm

Dr. O.D. Butler Memorial Scholarship

Sponsored through the

Brazos Area Hay Producers Association

The Brazos Area Hay Producers Association (BAHPA) was organized in 1986 as a non-profit educational committee through the Brazos County office of the Texas A&M AgriLife Extension Service. It encompasses a seven county area including Brazos, Burleson, Grimes, Leon, Limestone, Madison, Milam, Robertson and Washington. The major objectives of the BAHPA are to provide sources of high quality hay and to market hay by weight and analysis. These objectives can only be reached by linking knowledge and people through educational programming. In keeping with the need for education as a force for meaningful change and economic vitality for Texas, the Brazos Area Hay Producers Association plans to provide, in 2013, scholarships to high school graduating seniors in this nine county area that are either 4-H or FFA members.

In memory of Dr. O.D. Butler, retired Deputy Chancellor for Agriculture in the Texas A&M University System and former head of the Animal Science Department, these scholarships have been established in his name. Dr. Butler was one of the original founders and Directors on the Board of the BAHPA, where he continued as an active member until his death. He was known locally, nationally and internationally for his numerous contributions to agriculture and his great desire to educate others.

The Brazos Area Hay Producers Association Forage Field Day, one of the largest single county Extension educational events in Texas, held originally on Dr. Butler's Lease Place in College Station – was renamed the “Dr. O.D. Butler Memorial Forage Field Day” in 1998. In the past, this event has educated producers on the most current hay and beef cattle related topics, provided private, non-commercial and commercial pesticide applicators with Continuing Education Units (CEU's), presented walking-tour demonstrations, educational exhibits and hosted trade show exhibitors. Without Dr. Butler's personal commitment of time, facilities and money, this field day would not have been a reality much less the success it is known for. His dedication to continued education through the Texas A&M University System is most certainly a credit to him and his community. We are most fortunate to have had Dr. Butler so actively involved in our programming and our clientele have benefitted immensely. He is truly an Extension legend, led by example and served as a mentor educator to thousands over the years.

APPLICATION PROCEDURE:

Applications are furnished by the Brazos Area Hay Producer's Association to the county Extension agents and Ag Science Teachers in Brazos, Burleson, Grimes, Madison, Milam, Robertson and Washington counties. They should be completed in full and returned (or postmarked) no later than 5:00 pm on Friday, July 5, 2013 to the Texas A&M AgriLife Extension Service Office of Brazos County, 2619 Highway 21 West, Bryan, Texas 77803. For more information, please call (979) 823-0129 or e-mail Dustin Coufal at dwcoufal@ag.tamu.edu.

ELIGIBILITY:

The candidates must be a high school senior who will graduate by the spring semester of 2013 and members of either 4-H or FFA. (A signature of the county Extension agent or Agriculture Science Teacher is required as part of the certification.) They will be confined to those who have been either accepted or enrolled in a Texas College, University or trade school but are not limited to a specific or restricted major. Scholarship winners must take a minimum of 12 hours for the 2013 fall semester with proof of their registration and payment provided to the BAHPA before the recipient's check is mailed. **Proof of registration should be submitted to the Texas A&M AgriLife Extension Service Office of Brazos County.**

The candidate must have taken either the SAT or ACT College entrance examination and furnish proof of a minimum SAT score of 850 or a minimum ACT score of 19. Proof of the score may be part of the official transcript. The information should reflect the date the test was taken.

Applicant must include the following:

1. Typed or hand written scholarship application with signature of:
 - Applicant
 - Parent or Guardian
 - County Extension Agent or Ag Science Teacher
2. Current copy of high school transcript
3. ACT or SAT score
4. A typed narrative, not to exceed one page, double spaced. In this narrative, the applicant may supply any information which he/she feels is pertinent to the application receiving proper consideration.

(The decision of the committee is final)

Dr. O.D. Butler Memorial Scholarship
sponsored by the
Brazos Area Hay Producers Association - BAHPA
Due Date: Friday, July 5, 2013 by 5:00 P.M.
